A. Medical checkup for adults	2
B. Health checkup, etc.	6
C. If you suddenly feel sick at night or on holidays . . .	8

Health checkups are for healthy people.

Health checkups are conducted to pick out "people most likely to become ill" from "healthy people not aware of any symptoms, etc." and lead to early detection and treatment of diseases.

If you have the opportunity to have physical examinations or company checkups elsewhere, please have a checkup there.

If you are aware of symptoms, please see your doctor as soon as possible, rather than have a health checkup. Those who are currently undergoing treatments do not need to have health checkups.

A. Medical checkup for adults

Get a checkup and protect your health and your life!

流山市成人検診 検索 You can search on the internet.

⇒Precautions for adult Medical checkups

*① No application required for this checkup

Please contact the medical institution in advance. Please present proof of address, name, and date of birth (health insurance card, driver's license, etc.) to the medical institution on the day of the visit.

*② Exemption from co-payment

●Persons 70 years of age or older (born on or before April 1, 1954) and persons under 70 years old who have a valid "Later-stage Elderly Health Care Certificate"

●members of a household where all members are exempt from municipal tax (taxation status in 2023)

* For those who moved in on or after January 2, 2023, a tax exemption certificate for all members of the household at the address before moving in is required.

●members of a household receiving public assistance

*③ Interval between checkups

Stomach cancer screening (endoscopy) is once every two years.

Those who had Nagareyama City stomach cancer screening (endoscopy) this year are not eligible for the stomach cancer screening in the following year.

Breast cancer screening (mammography) is once every 2 years.

The screening ticket will be sent to those who have not had a Nagareyama City breast cancer screening (mammography) in the previous year.

*④ Stomach cancer screening (endoscopy)

The screening period differs depending on the month of birth. The screening ticket will be sent to you around the end of the month before the month in which you are eligible for the screening.

*⑤ Hepatitis virus screening

For those who are 40 years old or older in 5 year increments (40, 45, 50, 55, 60, 65...) and have not had hepatitis virus screening in the past, we will be sending out screening tickets in early June.

When the checkup for the current year is over

We will consider your application for next year. However, the screening for the next year and beyond has not yet been decided and may be subject to change. Please understand this before applying.
