

For "Burnable Garbage" and "Plastic Packings and Containers," new garbage bags designated by Nagareyama City will be introduced. These garbage bags will be sold at stores in the city.

## Implementation Schedule

October 2021	Start selling bags
October 2021- March 2022	Transition period
(During this period, conventional bags can also be collected)	
April 2022 and after	Designated bags only

## Four Advantages

- ① Reduction of garbage (reduction of CO<sub>2</sub> emissions)
- ② Increase of recycling rate of plastic containers and packaging
- ③ Prevention of incorrect garbage disposal and preservation of collection points
- ④ Deter offending garbage

## Q & A

- Q. When do we start using the designated bags? Where can we buy them?
- A. We plan to start using them in stages from October, and they will be sold at supermarkets and other retail stores in the city.
- Q. How much will they cost?
- A. Prices vary from store to store, but are expected to be ¥9 to ¥16 per sheet for 45 liters, and ¥9 to ¥12 for 30 liters.
- Q. It would be easier to use the bags if they came in various sizes...
- A. We will make them in four sizes: 45 liters, 30 liters, 20 liters, and 10 liters.
- Q. Will we no longer be able to use plastic bags from supermarkets or commercial garbage bags?
- A. They can be used for "non-burnable garbage," "plastic bottles," and "poisonous and hazardous materials."
